ABOUT ME

Flutter & Full-stack Engineer with 4+ years of experience delivering scalable mobile and web applications. Strong expertise in Flutter/Dart, Firebase, and API integration, with additional skills in ReactJS, Golang, and Java Spring Boot. Successfully launched 10+ applications to App Store and Google Play, serving thousands of users across Japan and Southeast Asia.

Short-term: Thrive in a global environment, build and mentor a strong development team.

Long-term: Transition into a leadership role (Tech Lead / Project Manager) to drive product strategy and team growth.

WORK EXPERIENCES

Flutter Engineer

11/2025 - Present

CMC GLOBAL

- Led the architecture and development of a cross-platform Flutter application supporting Android and Windows platforms.

- Designed the end-to-end real-time communication stack using Janus WebRTC, including video calls, screen sharing, participant management, and signaling infrastructure.

- Architected a high-performance digital ink engine with custom rendering strategies, stroke streaming, memory-efficient caching, and low-latency input processing.

- Defined technical solutions for platform-specific challenges related to rendering, touch/stylus input, and multimedia synchronization.

- Mentored team members, performed code reviews, and established engineering standards for scalability, maintainability, and performance.

SKILLS

Strong:

- Flutter/Dart
- Firebase
- REST API

Familiar:

- ReactJS,
- Golang
- Java Spring Boot

Soft Skills:

- Teamwork
- Leadership
- Communication

EDUCATION

BSc Hons in Computing

Rank: First Class

07/2018 - 07/2022

Greenwich University

- I have a knowledge about logical thinking
- I have a basic knowledge of object-oriented programming.
- I have a knowledge of analyzing customer requirements.
- I was trained in soft skills.
- I used flutter in final project.

CodeFresher

08/2020 - 12/2020

FRESHER-FLUTTER

Certified by CodeFresher

INTERESTS

listen to music, reading book

Flutter Engineer

03/2025 - 11/2025

Authentic education hub

- Key member in building and optimizing mobile applications for education platforms.
- Improved app performance by refactoring legacy features and integrating backend APIs.
- Implemented real-time features such as video calls (Agora, WebRTC) and push notifications (Firebase).
- Supported onboarding and mentoring for new developers.

Result: Enhanced user experience and helped the app reach thousands of active users after store release.

Flutter Engineer

04/2023 - 03/2025

Tastech-Asia

- Developed mobile apps and web solutions (Flutter, ReactJS, Java Spring Boot, Golang).
- Designed and implemented backend APIs and integrated 3rd-party services (Google, Firebase, Maps).
- Collaborated with cross-functional teams under Agile/Scrum methodology.
- Mentored junior developers and delegated tasks in small projects.

Result: Delivered 6+ projects for Japanese and regional clients, improving delivery speed and client satisfaction.

Flutter Developer

07/2021 - 04/2023

ITS-Solution

- Built and maintained multiple production Flutter apps (BLoC, Dio, Retrofit).
- Led Flutter sub-team in major projects, responsible for base code setup, task assignment, and code reviews.
- Integrated social logins (Google, Facebook, Twitter) and push notification systems.

Result: Successfully launched apps on Google Play & App Store, contributing to thousands of end-users in Japan and Vietnam.

Flutter Developer (Intern → Fresher)

12/2020 - 07/2021

ICheck

- Participated in developing product-tracking and authentication mobile apps.
- Implemented key UI modules (login, profile) and bug fixing.
- Gained hands-on experience with Flutter, REST APIs, and Agile teamwork.

Result: Strengthened Flutter expertise and contributed to 2 production applications.

LANGUAGES

- Vietnamese (Mother tongue)

- English (Communicate)

PROJECTS

Authentic Education Hub – Multiple Apps 06/2025 - Present

Flutter Engineer - Team size: 12–20

- **Description:** Developed and maintained 5+ mobile apps for education and e-commerce, including online learning, scheduling, and food ordering platforms.
- **Contribution:**
Converted UI/UX designs into Flutter code and integrated backend APIs.
Implemented real-time video calls (Agora, WebRTC) and Firebase push notifications.
Mentored new developers and optimized system performance.

Result: Apps successfully launched to stores, serving **thousands of daily active users** (students, teachers, and parents).

TasTech-Asia – PlanTour & Recago 04/2023 - 03/2025

Full-stack Developer - Team size: 4–6

- **PlanTour:** Web app for tour management and quotations. Built ReactJS front-end and Java Spring Boot APIs → reduced manual processes for travel agencies.
- **Recago:** Mobile + backend system for video/photo sharing. Developed Flutter app and Golang APIs with Firebase, Maps, and RabbitMQ → delivered MVP attracting first users.

ITS-Global – AirWater & BoxsApp 11/2022 - 04/2023

Lead Flutter Developer | 11/2022 – 04/2023 | Team size: 5

- **Description:** A mobile app for Japanese users to order and purchase gas,box online.
- **Contribution:**
Designed project architecture and led Flutter team.
Managed task assignments, code reviews, and store releases.
Integrated Firebase Auth, notifications, deeplink, and Google Maps API.

Result: Successfully launched on App Store & Google Play, supporting **100+ daily customer orders**.

Freelancer – Shorin (8 Apps) 09/2023 - 12/2023

Flutter Developer - Client: AtaraxiaDX

- Developed and optimized event & photo contest apps for Japanese users.
- Fixed critical bugs, improved performance, and deployed apps to stores.

Result: Enhanced stability and usability across 8 mobile apps.

Other Projects 2020 - 2022

Sototabe, BoxApp, Cotami, Business Center, ICheck Trace

Worked as Flutter Developer/Team Lead in apps for food coupons, logistics, restaurant hygiene, and product traceability.

Tech used: Flutter, BLoC, Dio, Retrofit, Firebase services.
